## Assembly Instructions – Sleigh Style 3

	<p>When you receive your kit it will come as a flat pack sheet – just pop the pieces out and get ready to assemble. Use a good quality glue for best results – wipe away any excess glue immediately with a damp cloth.</p> <p>You can paint the parts before assembly but ensure you avoid getting paint in the finger joints or assembly will be difficult.</p>	
<p><b>STEP 1</b></p> 	<p>Ensure the “good” surface is always facing out – you may wish to do a dry run (no glue!) assembly first.</p>	<p><b>STEP 2</b></p>  <p>Glue the 3 shaped struts into the underside of the sleigh base.</p>
<p><b>STEP 3</b></p> 	<p>Flip the base over, then attach the sleigh runners to form your base.</p>	<p><b>STEP 4</b></p>  <p>Assemble the 2 sides and back of the sleigh.</p>
<p><b>STEP 5</b></p> 	<p>Insert the seat piece.</p>	<p><b>STEP 6</b></p>  <p>Insert the kick board piece.</p>
<p><b>STEP 7</b></p> 	<p>Attach this to your base and that’s it – we hope you’ve enjoyed putting your kit together.</p>
